design

London based Ralli Design was formed by brother and sister Louis and Sophie Ralli in 2009 after graduating from Central Saint Martins, London, where they specialised in product and ceramic design.

In this catalogue we present our distinctive range of ceramic homeware. Space is an important consideration when designing for the home. Using pure lines and refined forms, our designs combine related items in clever ways to increase practicality, enhance utility and save space.

As British designers, we are proud to use British materials and manufacture. Our ceramics are made from fine English earthenware, manufactured at the renowned Royal Stafford pottery, Stoke on Trent, England.

A photograph featuring three lit white pillar candles of varying heights on a light-colored wooden surface. In the background, three white ceramic vases hold tall stems of white flowers, possibly lilies, positioned in front of a window that looks out onto a green landscape. The scene is softly lit, with the candle flames providing a warm glow. A watermark is centered over the image.
